

CHARDSTOCK ST. ANDREWS CHURCH - MARRIAGES

Source: Chardstock Parish Registers and Bishop's Transcripts

Dates: 1579 to 1582 from Bishop's Transcripts

1597 to 1850 transcripts from Parish Registers, except periods April 1710 to January 1717 and March 1809 to February 1813 for which no records are available. Prior to 1653 only the Bride and Groom's names are recorded. After 1653 the place of residence was given if outside the Parish and, in some cases, the father of either the Bride or Groom was also recorded. From 1754 some occupations were shown and from 1837 ages were sometimes given. The volume of information in the records does, however, vary considerably and is not consistent.

1850 to 1881 transcripts made by members of CHRG and based on the microfiches of the Parish Registers held at Devon Records Office. The information shown on these transcripts has been expanded to cover full details of the Bride and Groom, together with the respective father's name/occupation and the names of the witnesses.

While every effort has been made to ensure that the transcripts are as accurate as possible, researchers are strongly advised to consult the original copies at Devon Record Office and to use these transcriptions only as a guide to what these sources contain.

When using this site, the following points should also be borne in mind:

Abbreviations have been avoided wherever possible and full stops have not been used in names, thus Wm C. Watts in the register appears as William C Watts in the transcription. This measure is designed to assist word search software programmes.

After the transcripts of marriages, there is a separate date listing for information on marriages additional to that contained in the Parish Registers. This generally takes two forms - either someone with Chardstock connections marrying outside the Parish (sometimes referred to as "strays") or the announcement, usually in a newspaper or magazine, of a marriage at Chardstock. The sources of this information are varied, but are always given.

In cases where other research has produced an alternative to the transcribed version, that alternative is shown alongside the transcribed version in [] brackets, provided the alternative has an equal or greater likelihood of being the correct or preferred version.

CHARDSTOCK ST. ANDREW MARRIAGES
